Dear Parents/ Carers

At approximately 6.15pm last night our fire alarms went off due to a small fire in the science block. Our site team quickly assessed the situation and called 999.

There were staff, including myself, in another part of the school along with some parents for a Parent Voice evening; all were evacuated quickly and safely.

The fire service attended within minutes and safely extinguished the fire, they also spent some time clearing the building using large fans. Thanks to our robust safety procedures and the response of the fire brigade there is minimal damage and all classrooms have been deemed safe for use today.

We are investigating the cause of the fire but wish to assure you that there is no need for you to be concerned.
