4th January 2020

Dear Parent or Carer

We hope that you have been able to have a restful break over Christmas. Please see this letter as an update on the arrangements for remote education at the start of this term.

During lockdown and the periods of whole year group self-isolation last year, WSE developed a good system for remote learning using Loom lessons. These pre-recorded lessons were well-received by students because they allowed for flexibility and enabled students to pause, rewind and re-watch explanations from their teachers.

We know, however, that live contact with teachers and tutors is important so we will be delivering some live lessons and tutor times over the next two weeks. The timetable for these live sessions is attached along with a guide for engagement which we would ask students to read.

Mrs Lee has recorded a Loom video to explain remote learning for the next two weeks which you can view here: <https://www.loom.com/share/88df32da4de143e2a6eb3e9a1fee4d50>

In brief, students will be working through 5 remote lessons a day reflecting their normal school timetable. Please encourage your son or daughter to stick to their normal school day and be ready for learning. We will require students to make a submission of some kind every lesson and teachers will be gathering data about student completion of work. It is important that students engage fully with their remote learning and we will support students to catch up on any remote work missed upon their return to school.

If your child needs support to complete the remote lessons or needs feedback to move forward, they should contact their teacher by email. If you have any problems with technology (laptops, lack of internet) then these issues need to be sorted out quickly. Please contact Mrs Smith, Deputy Headteacher, so that we can help you: csmith@wyvernsteds.org.

Tutors will be prioritising phone calls home if there are concerns about your child's engagement with their remote learning. However, should you have further enquiries then please contact your child's tutor in the first instance.

Thank you again for your continued support.

Yours sincerely

R Lee
